

***Upon completion of this course,
the participant should be able to:***

- Treatment plan restorative options for single and multiple unit implant restorations
- Effectively communicate the benefits of implant therapy
- Effectively communicate with all members of the implant team
- View implants as the first-choice option for treatment of edentulism
- Restore single and multiple implants in a variety of clinical scenarios
- Have a community of female colleagues to grow their implant practices moving forward
- Solve some of the obstacles facing the female practitioner

Paul M. Korb, D.M.D., P.C.
4355 Johns Creek Parkway
Building E, Suite 530
Suwanee, GA 30024

“A Special Invitation”

*“I feel absolutely more confident in my ability to
treatment plan and restore implants.”*

*“I feel like I now have a network of colleagues as well as
Dr. Korb to help me treatment plan for success.”*

“I’m treatment planning and doing more implants.”

“I now have the ability to attempt more difficult cases start to finish.”

“It made me change the way I approach treatment planning.”

***“Ginger Rogers did everything Fred Astaire did
but backwards... and in high heels”***

- Bob Thaves

Women In Implant Denistry

Mentored By Pamela Doray, DMD, AAACD, FAGD, MSED.

Hosted By Paul M. Korb, D.M.D., P.C.

ATLANTA ATHLETIC CLUB

1930 Bobby Jones Drive
Johns Creek, GA 30097

Succeeding in Implant Dentistry Takes A Community

Join Dr. Pamela Doray in a forum for the female dentist to not just survive but thrive in North Atlanta. Dr. Doray will be addressing issues that can affect women in dentistry. This includes staffing, leadership, balance of work and family, stress management and personal fulfillment while managing, growing and perfecting your implant practice.

Pamela G. Doray, DMD, AAACD, FAGD, MSED.

Dr. Doray received her dental degree and graduated first in her class from the University of Pennsylvania School of Dental Medicine, in Philadelphia, Pennsylvania. She is currently an Adjunct Assistant Professor in both the Department of Restorative Dentistry at the University of Pennsylvania School of Dental Medicine and the Department of Oral Biomaterials at the University of Texas. Dr. Doray is an Accredited Member of the American Academy of Cosmetic Dentistry, a member of the Academy of Osseointegration, and a Fellow of the Academy of General Dentistry. She lectures extensively both nationally and internationally and has published numerous articles on the topics of occlusion and aesthetic restorations. Dr. Doray maintains a private practice with an emphasis on Adult Restorative, Cosmetic and Implant Dentistry in Philadelphia, Pennsylvania.

Paul M. Korb, D.M.D.

Dr. Korb is a board certified Oral and Maxillofacial Surgeon. The focus of his practice is implant dentistry through comprehensive, top down treatment planning. He understands that successful outcomes depend on a team effort between the surgeon and restorative dentist. Ideal restorations require ideal implant positioning. Therefore, Dr. Korb's practice focuses on all ancillary procedures for ideal implant positioning, including bone grafting, socket preservation, ridge reconstruction, sinus lifts and nerve repositioning. Experience and success matter. Dr. Korb has placed thousands of implants with a 98% documented success rate. In addition, Dr. Korb has been awarded Platinum status by Biomet 3i for his contributions in the field of implant dentistry. He is a past 3i surgical teaching mentor, and is one of 12 surgeons worldwide sitting on the 3i Surgical Advisory Board. His office is a Beta test site for new implant technologies. Dr. Korb also sits on the advisory board for the Institute for Dental Implant Awareness and lectures nationally on dental implant marketing and aesthetics.

Biomet 3i is an ADA CERP recognized provider.

Biomet 3i is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. BIOMET 3i designates this activity for 28 continuing education credits.

To provide each participant with a focused and personalized educational experience, the number of registrants is limited for each course and registration is accepted on a first-come, first-serve basis. Full tuition payment must accompany all registration forms. Upon receipt of registration form and tuition fee, Biomet 3i will send you a confirmation. If paying by check, please make check payable to Biomet 3i.
